Full Stack Developer | Next.js, Laravel, React

A full-stack developer with a master's degree in Software Engineering, competent in architecting and delivering projects across the entire SDLC. Specialized in Next.js, React, and Laravel, delivering solutions for SaaS, e-commerce, and multi-tenant platforms.

WORK EXPERIENCE

Full stack developer • Full-time

Asis.tn

Tunis • Nov 2024 – Present

- Refactored a legacy property rental platform using Laravel/React, ensuring strict adherence to MVC architecture and best practices, improving maintainability, security, and performance, while implementing major UI/UX improvements alongside critical security fixes.
- Managed the post-release support cycle, troubleshooting and resolving a variety of platform issues while developing and deploying new features through third-party API integration and internal system improvements.
- In Progress managing the development and migration process of accounting application to a modern Laravel/React multi-tenant web platform, Regularly engaged the client for feedback, ensuring specifications are met and driving rapid, iterative advancement.
- Delivered 8 responsive marketing websites leveraging a modern stack (Next.js, Shadcn, Tailwind CSS) with WordPress as a headless CMS. Optimized performance, SEO, and load times by capitalizing on Next.js features such as SSG, ISR, and native Image Optimization.
- Built a full-stack e-commerce platform (Next.js + TypeScript + Supabase) with Redux cart state, NextAuth authentication, and Prisma ORM for scalable data handling.

Full stack developer

Sofrecom Tunisie

Feb 2024 – Jun 2024

- Designed and developed a scalable RESTful API with Spring Boot + Angular SPA, implementing optimized SQL queries and efficient pagination.
- Enforced security & RBAC using JWT + Spring Security, driving test coverage above 97% and delivering comprehensive documentation.
- Automated deployments with CI/CD (GitLab, SonarQube) and containerization via Docker Swarm, increasing release frequency and reliability.
